## OBJECTIVE

A self-motivated and enthusiastic individual seeking an opportunity to be part of your organization as a Web Developer. With my eagerness to learn new technologies and acquired skills from 3 years of web application development using vanilla technologies and frameworks, I will be able to contribute to your team's vision.

## PROJECTS

### Web Blocker (Chrome Extension) – [webblockerextension.com](http://webblockerextension.com)

**Technologies used:** ReactJS / Typescript – (Webpack, NextJS, Typescript, Chrome Manifest V3)

- Restrict users from accessing websites using Chrome Manifest V3
- Configure Webpack to use ReactJS and Typescript for faster development
- Design and deploy the official website using NextJS, Figma, and Vercel
- Submit and publish code based on google chrome standards.

### jetdev.info (personal portfolio) – [jetdev.info](http://jetdev.info)

**Technologies used:** ReactJS / Typescript – (NextJS, Firebase)

- Design and code a mobile-friendly UI
- Utilize different rendering options offered by NextJS
- Integrate 3rd party API (Spotify)
- Using firebase as the backend/database

### End to End Content Management System (e2e)

**Technologies used:** React / Nodejs

- Full system flow of flowerstore.ph for organizing and dispatching of orders.
- Created a reusable UI for the system
- Collaborated with back-end developers

### Flowerstore.ph – [flowerstore.ph](http://flowerstore.ph)

**Technologies used:** Laravel – (PHP, JS, CSS, HTML)

- Order restriction based on date and time
- Dynamic computation of products prices based on dates
- Mobile Responsive Design

### Minimart.ph

**Technologies used:** Laravel – (PHP, JS, CSS, HTML)

- Redesign flowerstore.ph into minimart.ph
- Improved mobile design

## Fans.ph

**Technologies used:** Laravel - (PHP, JS, CSS, HTML)

- Convert design / wireframes into HTML/CSS code
- Mobile responsive design

## EXPERIENCE
