RAMIL D. SAAVEDRA

PROFESSIONAL SUMMARY

A self-motivated web developer with 3+ years of hands-on experience in developing scalable web applications using a wide range of front-end and back-end skills like React, NodeJS, and Typescript. Optimized the front-end application for a better user experience at Pictureworks. Developed efficient websites within a short time frame and generated millions in revenue at Flowerstore Group. A quick learner who can absorb new ideas and have experience working independently or with a team.

SKILLS

- Javascript
- Typescript
- Tailwind
- ReactJS

- NextJS
- Figma
- NodeJS
- Webpack

- Firebase
- PHP
- Laravel
- MySQL

EXPERIENCE

Flowerstore Group

Web Developer (April 2019 – March 2021)

- Created four full-stack web applications to satisfy the needs of the rapidly growing company.
- Developed all the user interfaces of the four full-stack web applications using HTML, CSS, Blade, and ReactJS.
- Work with the designers and heads to translate designs into code.
- Collaborate with the app development team, including the project manager, developers, and quality assurance specialists, to identify problems, testing methods, and best practices.
- Managed time-sensitive updates, such as changing content and marketing campaigns.
- Create and deliver highly efficient application-based solutions to optimize the company's complaints handling process.

Pictureworks Group Pty. Ltd.

Full-stack Web Developer (March 2021 – May 2021)

- Optimized the front-end application to improve user experience.
- Porting the functionality from the legacy application to the new modern application.
- Created reusable user interface components and ensures they follow the design system.
- Documented steps of installation for seamless onboarding of new developers.
- Collaborate with other developers to deliver the best solutions on a given task.
- Write clean and maintainable code and take responsibility for technical delivery.

Freelance Developer

Front-end Web Developer – (March 2021 – Present)

- Translate a pixel-perfect user interface design into reusable components.
- Creating and executing unit testing and performing basic application testing.
- Collaborate with backend developers for API integration.
- Review and test other developers' pull requests.

PROJECTS

Web Blocker

Technologies used: *ReactJS, Typescript, Webpack, NextJS, Chrome Manifest V3, Webpack, Figma.*

A free chrome extension that let the user block distracting websites to stay focused. This is a personal project inspired by the documentary film "The Social Dilemma".

Source code: https://github.com/ramilsaavedra/webblocker-chrome-v2

Homepage: https://www.webblockerextension.com/

Source code homepage: https://github.com/ramilsaavedra/webblocker-homepage

jetdev.info

Technologies used: *ReactJS, Typescript, Firebase, NextJS, Figma.*

This project was built to understand the different rendering options offered by NextJS and the efficiency of Firebase as a backend for fast-paced projects.

Source code: https://github.com/ramilsaavedra/jetdev.info

Homepage: https://www.jetdev.info/

Flowerstore.ph

Technologies used: *Laravel, PHP, Javascript, JQuery, MySQL*

An e-commerce website that focuses on selling flowers and giving happiness to clients. The main goal of the application was to control and organize orders from clients that will be direct to the main System, also to provide fast and better service.
